Summer Tips for Success with Reflex!

Dear Parents/Guardians,

Help your child avoid the “summer slide” and encourage them to use their Reflex account this summer! Reflex is an online, game-based program that helps students build fast and effortless recall of math facts. Research has shown that quick recall of math facts is critical for future success in mathematics.

Summer Tips for Success

- **Student Login is via M-DCPS Student Portal**
 - Select Reflex via Schoology.
 - Students will be taken directly into their accounts. No username or password required.
- Students are encouraged to login to **Reflex** math through their student portal at least 3 times a week and strive for the “**green light**” each time. [Importance of the Green Light Info](#)
- Your child can utilize the **Reflex** math program from any device with internet access throughout the summer, including smartphones.
- **Reflex** helps students of all ability levels to develop fluency with their basic facts in addition, subtraction, multiplication and division.
- **Reflex** continuously monitors your child’s performance to create an optimal experience for them.
- Encourage your child(ren) to participate in the **M-DCPS Reflex Summer Math Challenge**. No special registration required. Just login as usual, *Get the Green Light*, and have fun throughout the summer.

Have a wonderful & safe summer!

Exciting news, Miami-Dade County Public Schools! Students will have access to IXL all summer long. Simply log into IXL and start working on skills! Each **Summer Boost Skill Plan** is filled with essential skills aligned to a student's grade level. These skill plans provide students with one IXL skill per day to work on for 20 days and are a great way to get students ready for the next school year.

How to find the perfect IXL skills for summer

1

To get started, sign into IXL through Schoology.

2

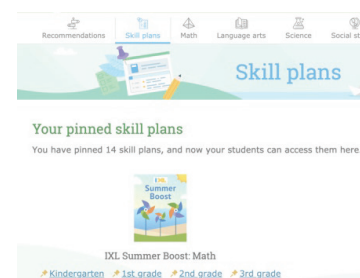

Once you are logged in, hover over Learning in the green toolbar and click on **Skill plans**.

3

Click into the **Summer Boost Skill Plan**, located at the top of the page.

*Hint: If a student just finished 4th grade and is a rising 5th grader, click into the 5th grade skill plan.

4

Students can begin working on the **Skill Plan** by clicking into the first skill. We suggest following the pacing guide on the skill plan.

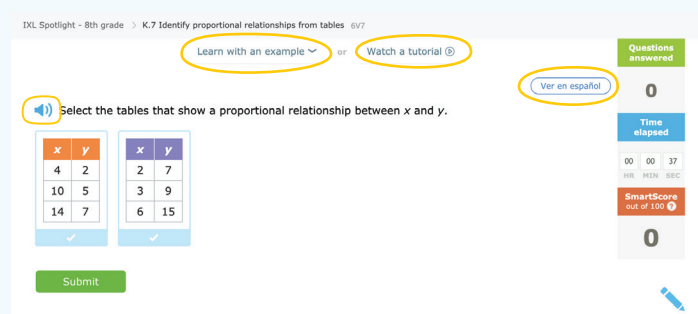

Tips for success

Work to a SmartScore of 80

For each IXL skill, students should work to a SmartScore of 80, which is considered proficiency. This assures that a student has a really good grasp on the skill.

If a student achieves proficiency and is ready for a challenge, they can always strive for mastery — a SmartScore of 100!

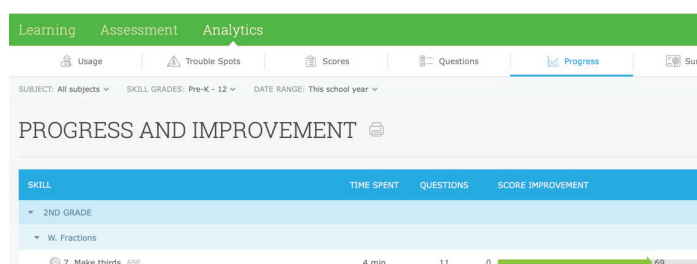

In-the-moment student support

IXL includes audio support, Spanish language support, video tutorials for key math skills, and provides students with immediate feedback after each response with question-specific explanations.

Track your progress

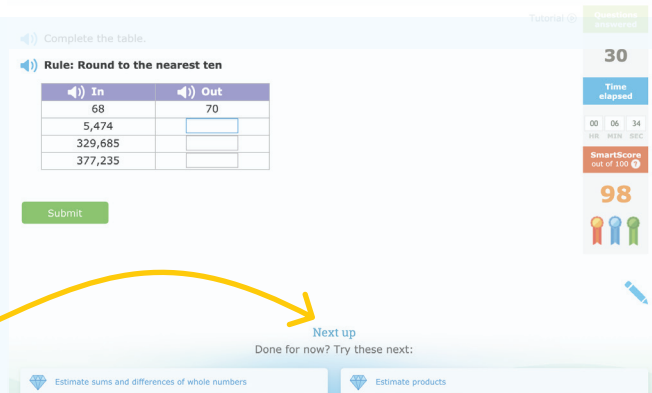

You can also track progress on all IXL skills! Simply navigate to Analytics.

In the Progress Report, you will be able to see all of the skills a student has worked on, how much time they've spent, and how their SmartScore has progressed from working on IXL skills this summer.

Challenge yourself

Work to a SmartScore of 90! Challenge students with a "Next Up" skill! After a student has reached a SmartScore of 90 while practicing a skill, IXL recommends "Next Up" skills that build upon what students just practiced so they can continue to be challenged.

Consejos para mejorar al máximo

Alcanzar una puntuación SmartScore de 80

Para cada destreza de IXL, los estudiantes deben trabajar hasta alcanzar una puntuación SmartScore de 80, que se considera de dominio. Esto garantiza que el alumno tiene un buen conocimiento de la habilidad.

Si un estudiante logra dominar una habilidad y está listo para un desafío, siempre puede esforzarse por alcanzar la perfección: ¡una puntuación SmartScore de 100!

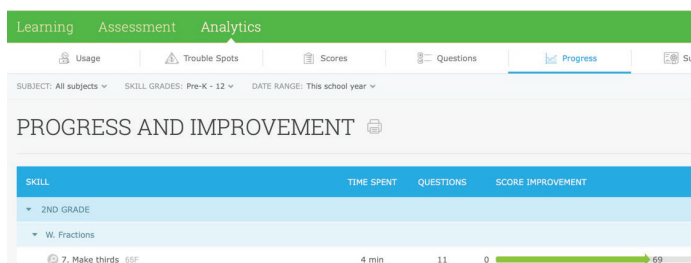

Apoyo inmediato al estudiante

IXL incluye apoyo mediante audio, apoyo en español y tutoriales en vídeo para destrezas matemáticas esenciales, además de ofrecer a los estudiantes retroalimentación inmediata después de cada respuesta con explicaciones específicas sobre la pregunta.

Monitorización del progreso

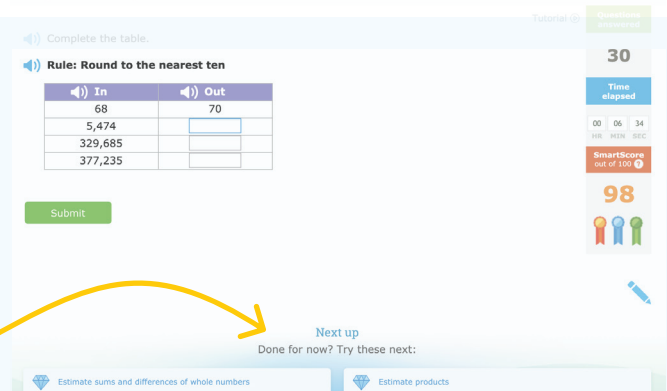

¡También puedes hacer un seguimiento del progreso en todas las habilidades de IXL! Sólo tienes que hacer clic en Analytics.

En el Informe de Progreso, podrás ver todas las habilidades en las que ha trabajado un estudiante, cuánto tiempo les ha dedicado y cómo ha progresado su SmartScore durante el verano.

Superación de retos

¡Trabaja hasta alcanzar un SmartScore de 90! Reta a los estudiantes con habilidades de continuación. Después de alcanzar un SmartScore de 90 en una habilidad, IXL les recomienda más habilidades que se basan en lo que los estudiantes acaban de practicar para que puedan seguir enfrentándose a retos.

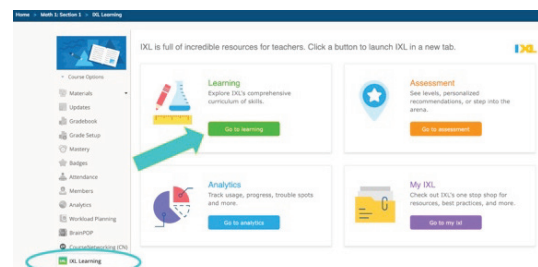

¡Tenemos una gran noticia para las familias de Miami-Dade County Public Schools! Los estudiantes tendrán acceso a IXL durante todo el verano. ¡Tan solo deben iniciar sesión en IXL y comenzar a desarrollar sus habilidades! Cada **Summer Boost Skill Plan (Plan de Habilidades Específico para el Verano)** contiene habilidades esenciales alineadas con el nivel escolar del estudiante. Estos planes de habilidades dan a los estudiantes la oportunidad de trabajar en una habilidad cada día durante 20 días y son una gran manera de prepararles para el próximo año escolar.

Cómo encontrar las habilidades de IXL perfectas para el verano

1

Para empezar, inicia sesión en IXL mediante Schoology.

2

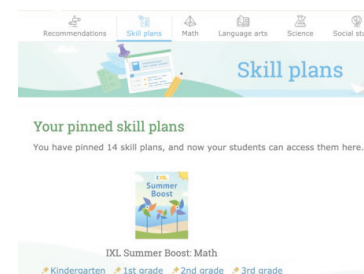

Una vez que hayas iniciado sesión, ve a Learning, en la barra de herramientas verde, y haz clic en **Skill Plans (Planes de Habilidades)**.

3

Haz clic en el **Summer Boost Skill Plan (Plan de Habilidades Específico para el Verano)**, ubicado en la parte superior de la página.

*Pista: Si un estudiante acaba de terminar cuarto curso y va a comenzar quinto, haz clic en el plan de habilidades de quinto.

4

Los estudiantes pueden comenzar a trabajar en el plan de habilidades haciendo clic en la primera habilidad. Recomendamos que sigan el ritmo que marca el plan de habilidades.
